- (i) if a Consumer, or the Retailer on behalf of a Consumer, raises concerns with the Distributor regarding the Gas quality (which means the pressure or capacity of the supply), reliability, or safety of the Consumer's supply, the Distributor will investigate those concerns, and, if appropriate, install equipment at the Consumer's Point of Connection to measure Gas pressure, and provide the results of such measurements to the Retailer. If such installation requires the Services to be interrupted, the Distributor will restore the Services as soon as reasonably practicable; and
- (j) provide any Additional Services as agreed.

- 2.2 **Retailer's services and obligations:** The Retailer will in accordance with Good Industry Practice:

3. EQUAL ACCESS AND EVEN-HANDED TREATMENT

3.1 **Equal access and even-handed treatment:** The Distributor will give all System Users (including the Retailer) equal access to the Network Services and will treat all System Users (including the Retailer) even-handedly.

3.2 **The Distributor will notify the Retailer of alternative contracts:** Within 20 Working Days after agreeing to, or agreeing an amendment to, a contract relating to the supply of Network Services with any System User other than the Retailer (the contract or amended contract, as applicable, being an "Alternative Contract"), the Distributor will notify the Retailer in writing of the existence of that Alternative Contract, make the Alternative Contract available on its website, and invite the Retailer to adopt the Alternative Contract (with any changes necessary to reflect the fact that the Retailer is a different Party).

3.3 **The Retailer has sole discretion to adopt Alternative Contracts:** Within 12 months of the Distributor commencing an Alternative Contract with any retailer other than the Retailer, the Retailer may, at its sole discretion, choose to adopt the Alternative Contract in substitution for this Agreement provided that:

- (a) the Retailer gives not less than 20 Working Days' Notice to the Distributor of its intention to sign the Alternative Contract; and
- (b) the Retailer adopts the Alternative Contract in its entirety.

3.4 If an Alternative Contract is adopted in accordance with Clause 3.3, this Agreement will terminate from the date of such adoption. The provisions of Clauses 22.3 to 22.7 also apply to a termination of this Agreement under this Clause 3.4.

4. NETWORK OWNERSHIP

4.1 The Network is the property of the Distributor and the Retailer shall not have any right, title or interest in the Network at any time.

5. TITLE, POSSESSION, RESPONSIBILITY AND DEEMED DELIVERY

5.1 **Title to Gas:** Title will at all times remain with the Retailer and the Retailer hereby warrants to the Distributor that, at the time of delivery to the Distributor, the Retailer has good title to the Gas, free and clear of all liens, encumbrances and claims.

5.2 **The control and possession of Gas:** The control and possession of Gas will pass from the Retailer to the Distributor at the Gas Gate and will be held by the Distributor until Gas is delivered to the Retailer at the ICP at which time the control and possession of Gas will revert to the Retailer

5.3 **Responsibility for Gas:** The Distributor will be responsible for the Gas solely on the basis set out in this Agreement while distributing it from the Gas Gate to the Retailer at the ICP and the Retailer will be solely responsible for the Gas at all other times.

5.4 **Deemed delivery of Gas:** The Parties agree that by delivering Gas to the Retailer at the ICP in accordance with the terms of this Agreement, the Distributor will be deemed to have delivered the Retailer's Gas to it.

5.5 **Mixing of Gas:** The Retailer accepts that the Retailer's Gas will be mixed with other Gas in the Network and that the Gas will be subjected to processes within the Network consistent with the Distributor's operation of its Network.

6. QUANTITY

6.1 **Receive, distribute and deliver Gas:** Subject to the terms of this Agreement, the Distributor will on a 24 hour per day basis receive Gas delivered by the Retailer at the applicable Gas Gate, distribute Gas through the Network, and deliver Gas to the Retailer at the ICPs as set out in the Registry.

6.2 **Delivery of sufficient Gas by Retailer:** Subject to the terms of this Agreement the Retailer shall use reasonable endeavours to ensure that there is at all times sufficient Gas delivered to the appropriate Gas Gates so as to allow the Distributor to provide Network Services to the Retailer in accordance with this Agreement (including delivery of the specified MHQ for each ICP) without impinging on GasNet's ability to deliver Gas on behalf of other System Users. Such Quantity of Gas shall include allowance for UFG.

6.3 **System Users to deliver their own Gas:** The Distributor shall use reasonable endeavours to ensure that there is at all times sufficient Gas delivered to the appropriate Gas Gates by all System Users so as to allow the Distributor to provide Network Services to the Retailer in accordance with this Agreement.

6.4 Maximum Hourly Quantity (MHQ):

- (a) Subject to the terms of this Agreement the Distributor will deliver the MHQ set out in the Registry to each ICP.
- (b) The Distributor will not be required to deliver to any ICP a flow of Gas greater than the MHQ set out in the Registry for such ICP.
- (c) The Distributor will not be responsible to the Retailer in the event that Gas available to be drawn from the Network by any Consumer is reduced because the Quantity of Gas taken from the Network by any Consumer exceeds MHQ.

6.5 Increase in Maximum Hourly Quantity (MHQ) Initiated by Retailer: Where the Retailer wishes to increase MHQ at an ICP then;

- (a) The Retailer will notify the Distributor in accordance with Schedule 6 that it wishes to increase the MHQ at an ICP, specifying the MHQ requested and the type of equipment being installed, removed or modified, if that is the reason for the increase in MHQ.
- (b) The Distributor will advise the Retailer in writing within Ten (10) Working Days of receipt of notification in accordance with 6.5(a) whether or not the Distributor is prepared to receive, distribute and deliver the increased MHQ to an ICP in respect of which Notice is received pursuant to Clause 6.5(b). In the event that the Distributor is prepared to increase the MHQ from the date requested by the Retailer (or otherwise specified by the Distributor) the Distributor will advise any change in Network Charges in addition to any requirements necessary to enable the Distributor to be able to meet the Retailer's request, including any risk-sharing arrangements that may be required by the Distributor prior to committing capital funding, with such arrangements taking into consideration any cost sharing arrangements made between the Consumer and the Distributor.
- (c) If the Retailer agrees to pay for any cost incurred by the Distributor in physically providing for increased MHQ the Parties shall record such arrangements in writing.
- (d) Once agreement has been reached in writing to increase MHQ and such change is effected the change to the MHQ will be recorded in the Registry.
- (e) If the Parties are unable to agree cost sharing arrangements pursuant to Clause 6.5(b) the matter shall be referred to mediation pursuant to Clause 26

- 6.6 **Reduction in Maximum Hourly Quantity (MHQ):** Where the Retailer wishes to reduce MHQ at an ICP then;
- (a) The Retailer will notify the Distributor in accordance with Schedule 6 that it wishes to reduce the MHQ at an ICP specifying the MHQ requested and the type of equipment being installed, removed or modified if that is the reason for the reduction in MHQ.
 - (b) The Distributor will advise the Retailer in writing within Ten (10) Working Days of receipt of notification in accordance with 0(a) whether or not the Distributor is prepared to receive, distribute and deliver the new MHQ to the ICP from the date requested by the Retailer. In the event that the Distributor is prepared to decrease the MHQ from the date requested by the Retailer (or otherwise specified by the Distributor) the Distributor will advise any change in Network Charges in addition to any requirements necessary to enable the Distributor to be able to meet the Retailer's request.
 - (c) Once agreement has been reached in writing to reduce MHQ the change to the MHQ will be recorded in the Registry.
 - (d) If the Parties are unable to agree any proposed change to Network Charges pursuant to Clause 0(b) the matter shall be referred to mediation pursuant to Clause 26.
- 6.7 **Usage in excess of Maximum Hourly Quantity (MHQ):**
- (a) The Retailer shall not knowingly receive or take or allow any Consumer to whom the Retailer supplies Gas to receive, take, or have delivered any Quantity of Gas in excess of the agreed MHQ set out in the Registry (if any) in respect of any ICP.
 - (b) The Distributor will endeavour in accordance with Good Industry Practice to identify any ICP where the actual Gas consumption is known or suspected to exceed the MHQ, where any usage in excess of the MHQ has been identified as having the potential to impact on the Distributor's ability to deliver Gas to other Consumers. Where the actual Gas consumption has repeatedly exceeded the MHQ for such ICP the Distributor will take appropriate action to remedy the situation, which may include installation of a Flow Limiting Device in accordance with Clause 6.9 or initiating an MHQ increase in accordance with Clause 6.5.
- 6.8 **Retailer to Advise Nominated Annual Quantity:** Where requested by the Distributor the Retailer will, within 2 months of the request, provide the Distributor the Nominated Annual Quantity for the following Pricing Year for:
- (a) each ICP where the Nominated Annual Quantity exceeds 10TJ; and
 - (b) all other ICP's either aggregated by Load Group or for each ICP,
- provided that the Distributor shall not make such request more than once in any Pricing Year.
- 6.9 **Flow Limiting Device:**
- (a) The Distributor may require the installation of a Flow Limiting Device to limit the flow of Gas at any ICP to the agreed MHQ for such ICP in situations where usage in excess of the MHQ may impact adversely on the Network. In the event that the Flow Limiting Device is installed to protect the Network and is installed on the Network or within the GMS, whether the Distributor owns the GMS or not, the cost of installation shall be met by the Distributor.
 - (b) Where the GMS at an ICP is not owned by the Distributor and the Retailer has requested the Distributor install a Flow Limiting Device on the Network, the Distributor will advise the Retailer within Three (3) Working Days if it is prepared to install such device and, if so, the terms on which the Distributor is prepared to install (including timeframe and cost).
 - (c) Where the Distributor does not own the GMS and the Distributor requires the installation of a Flow Limiting Device to limit the flow of Gas at any ICP to the agreed MHQ for such ICP and the Flow Limiting Device cannot be installed on the Network the Retailer will arrange for such Flow Limiting Device to be installed within the GMS or on the Consumers Gas Installation downstream of the GMS. The reasonable cost of installation shall be met by the Distributor.

7. DELIVERY PRESSURE

- 7.1 The Distributor will endeavour in accordance with Good Industry Practice to ensure that Gas delivered to an ICP is delivered within the pressure range specified by the Distributor as being applicable to that ICP or such other pressure range as may be requested by the Retailer and agreed to in writing by the Distributor.
- 7.2 Where the Retailer becomes aware that the Delivery Pressure at an ICP has fallen outside the standard pressure range for that ICP then the Retailer will notify the Distributor of the occurrence as soon as reasonably practicable.
- 7.3 If the Distributor anticipates or is otherwise aware that Gas is or will be delivered to an ICP outside the pressure range for that Network, the Distributor will advise the Retailer as soon as is reasonably practicable of the steps required, and the time frame proposed, to correct it.
- 7.4 In parts of the Network the delivery pressure may during periods of high demand fall below the standard pressure range. The Distributor aims to ensure delivery pressures remain within the standard pressure ranges through its maintenance, rehabilitation or reinforcement programmes covered in greater detail within its Asset Management Plan.

8. QUALITY

8.1 Gas

- (a) The Retailer agrees that all Gas delivered by the Retailer to the Distributor pursuant to this Agreement will conform to the Gas Specification.
- (b) The Retailer acknowledges that while the Distributor will require all System Users to deliver Gas conforming to the Gas Specification the Distributor may have no knowledge or control of whether such Gas conforms with the Gas Specification or whether other gas in the transmission system upstream of the Gas Gate and which enter the Network conforms with the Gas Specification. The Distributor shall have no liability to the Retailer in respect of Non-Specification Gas unless the Distributor knowingly receives Non-Specification Gas and fails to comply with Clause 8.2

8.2 Non-Specification Gas

- (a) The Parties acknowledge that the Transmission System Operator, Vector Limited, in its "Vector Gas Transmission, Critical Contingency Management Plan" dated 11 September 2012, acknowledges that although Non-Specification Gas is considered to be a credible system threat, it is unlikely to give rise to a breach of a threshold limit as Vector Limited employs a number of controls and monitoring procedures to protect against these types of events occurring and has plans and equipment available to deal with such events.
- (b) Either Party will endeavour to notify the other Party as soon as possible if they become aware of any situation where Non-Specification Gas is or has the potential to be delivered to any Gas Gate.
- (c) In the event that the Distributor is aware of any situation where Non-Specification Gas is or has the potential to be delivered to any Gas Gate Clause 9 shall apply.
- (d) The Distributor will not be required to accept Non-Specification Gas at a Gas Gate unless in any particular instance it has agreed to do so. Prior to so agreeing the Distributor will seek the consent of all System Users to receive Non-Specification Gas.

8.3 Odourisation

- (a) The Retailer will deliver Gas to the Distributor at the Gas Gate which is odourised and complies with NZS 5263:2003 Gas Detection and Odourisation. The Retailer will satisfy the Distributor that quality assurance procedures are in operation to ensure odourisation of the Gas delivered by the Retailer to the Gas Gate.
- (b) The Distributor will on a monthly basis (in accordance with NZS 5263:2003 Gas Detection and Odourisation) monitor and record odorant levels at selected points on the Network and will advise the Retailer as soon as it anticipates or encounters any odorant fade or masking.

- (c) If requested the Distributor will provide details of odorant levels measured by the Distributor to the Retailer.
- (d) Either Party will endeavour to notify the other Party as soon as possible if they become aware of any situation where Gas within the Network is or has the potential to be over or under odorised.
- (e) If requested the Retailer will supply to the Distributor copies of the quality assurance procedures for the supply of odorised Gas at the Gas Gate.

9. SERVICE INTERRUPTIONS

General

- 9.1 **Communications policies:** The Parties will comply with the communication policies set out in Schedule 5.
- 9.2 **The Distributor may Publish Service Interruption information:** The Distributor may Publish or disclose to the media or any other person any information relating to any Service Interruption.
- 9.3 **Policy for managing load during a Network Emergency:** The Distributor will develop and Publish a policy for managing load on the Network during a Network Emergency, and will set out in the policy the priorities for Load Shedding, the use of interruptible load (if any), and the restoration of load. When developing and amending the policy, the Distributor will consult with all System Users (including the Retailer), and will take all feedback received into account in finalising the policy. The policy must be consistent with this Agreement and the Distributor will endeavour in accordance with Good Industry Practice to comply with the policy, but the Distributor will not be in breach of the policy if the Distributor has acted in good faith.
- 9.4 **Load Shedding:** The Distributor may carry out Load Shedding in the following circumstances:
 - (a) **Maintenance of Network equipment:** if the Distributor wishes to inspect or effect alterations, maintenance, repairs or additions to any part of the Network, subject to Clauses 9.6, 9.8, 9.9 and Schedule 5 as applicable;
 - (b) **Provision of supply within the Service Standards:** as permitted by the Service Standards, if the Consumer has elected to receive an interruptible or otherwise non-continuous supply of Gas;
 - (c) **Maintain security and safety:** to maintain the security and safety of the Network in order to:
 - (i) maintain a safe environment, consistent with the Distributor's health and safety policies;
 - (ii) prevent unexpected short term overloading of the Network;
 - (iii) prevent Gas pressures rising or falling to unsafe levels;
 - (iv) manage Network security; and/or
 - (v) avoid or mitigate damage to the Network or any equipment connected to the Network;
 - (d) **Other circumstances:** for any other purpose that, in the Distributor's reasonable opinion and in accordance with Good Industry Practice, requires the interruption or reduction of delivery of Gas to any ICP.

Network Emergency and Unplanned Service Interruptions

- 9.5 **Distributor and Retailer to receive Network Emergency and Unplanned Service Interruption calls:** The Distributor and Retailer acknowledge that either Party may receive

Network Emergency and Unplanned Service Interruption calls from Consumers. The Parties will agree the circumstances under which each Party will manage any subsequent communication with affected Consumers until normal service is restored but unless otherwise agreed by the Parties the Retailer will be responsible for Unplanned Service Interruption calls and for informing and educating Consumers on the process to be followed.

9.6 **Notification of Network Emergency and Unplanned Service Interruptions:** After the occurrence of a Network Emergency or Unplanned Service Interruption, the Distributor and Retailer will comply with the relevant emergency and service interruption communication policy as set out in Schedule 5.

9.7 **Consumer requests for restoration of Network Services:** During any Network Emergency or Unplanned Service Interruption, unless the Distributor requests otherwise, the Retailer will forward to the Distributor any requests it receives from Consumers for the restoration of the Network Services as soon as practicable, and the Distributor will acknowledge such receipt unless the Retailer requests otherwise.

Planned Service Interruptions

9.8 **Distributor to schedule Planned Service Interruptions to minimise disruption:** The Distributor will, as far as is reasonably practicable, schedule Planned Service Interruptions to minimise disruption to Consumers.

9.9 **Distributor to comply with communication policies:** The Distributor will comply with the Service Interruption communication policy set out in Schedule 5 in relation to the notification of Planned Service Interruptions, including any changes to the planned date and time for restoration of Network Services.

9.10 **Costs of communication:** If the Distributor asks the Retailer to notify Consumers in accordance with Schedule 5, the Distributor will meet the reasonable costs incurred by the Retailer in complying with such requests, unless agreed otherwise in writing.

Restoration of Network Services

9.11 **Distributor to restore Network Services as soon as practicable:** For all Service Interruptions, the Distributor will endeavour in accordance with Good Industry Practice to restore the Network Services:

- (a) for Network Emergencies and Unplanned Service Interruptions, within the timeframes set out in Schedule 1; and
- (b) for Planned Service Interruptions, within the timeframe set out in the Notice for Planned Service Interruptions,

and in any event will restore the Network Services as soon as practicable.

9.12 **Retailer's remedy:** Except as provided in Clause 14.10, the Retailer's only remedy if the Distributor fails to meet the timeframes in Clause 9.11 is recovery of a Service Guarantee in accordance with Schedule 1, if applicable.

10. UNACCOUNTED FOR GAS (UFG)

10.1 **Determination of Annual UFG Factor:** The Allocation Agent will determine the Annual UFG Factor in accordance with the Downstream Reconciliation Rules.

10.2 **Distributor to investigate adverse trends in UFG:** If over time UFG trends abnormally away from expected or historical UFG, the Distributor will use reasonable endeavours to identify the cause of the abnormal movement. The Retailer will provide the Distributor with any additional information that the Distributor may reasonably require to enable the Distributor to investigate any adverse trends in UFG within 15 Working Days of the request from the Distributor. If the Distributor is unable to identify the cause of the abnormal movement, the Distributor will provide relevant information to all affected System Users (including the Retailer) and will, if requested by the Retailer, facilitate a meeting of all affected System Users (including the Retailer) to attempt to resolve the matter.

11. SERVICE PERFORMANCE REPORTING

- 11.1 **Parties to report on performance relative to Service Standards:** Each Party will, unless it is required by law to publish such information elsewhere, prepare a report on its performance relative to the Service Standards in accordance with the reporting measures and at the frequency set out in Schedule 1 (“**Performance Report**”).
- 11.2 **Contents of performance report:** A Performance Report prepared in accordance with Clause 11.1 will:
- (a) compare actual service performance to the target Service Levels and the service performance reporting measures for each applicable Service Standard;
 - (b) explain the reasons for any significant under-performance by either Party, and explain what actions the Party will undertake to rectify that under-performance; and
 - (c) if a Party claimed during the relevant reporting period that it was unable to meet the Service Standards due to the occurrence of a Force Majeure Event for which it invoked Clause 24, give a full account of the nature of the Force Majeure Event and the impact of the Force Majeure Event on that Party’s performance in relation to the Service Standards.
- 11.3 **Additional reports:** Either Party (the “**Requester**”) may request that the other Party (the “**Provider**”) provide additional performance reports, including reports containing information in addition to that specified in Clause 11.2 or more frequent reports containing the same information. The Provider will comply with such requests if it is reasonably able to do so. The Provider may charge the Requester for the costs reasonably incurred in preparing and supplying such additional reports, provided that if an additional report is requested due to a suspected failure by the Provider to meet a Service Standard that has not been reported in accordance with Clause 11.2, and the additional report demonstrates that such failure existed, no charge may be levied.
- 11.4 **Insurance not to be compromised:** Nothing in this Clause 11 requires either Party to disclose information that may adversely affect an insurance policy held by that Party.

PART II - PAYMENT OBLIGATIONS

12. NETWORK SERVICES PRICES AND PROCESS FOR CHANGING PRICES

- 12.1 **Network Services Price information:** The Distributor’s Pricing Methodology and a schedule of Load Groups and Prices are set out on the Distributor’s website.
- 12.2 **Price Changes:** Unless otherwise agreed with the Retailer, the Distributor may not change its Prices more than once in any period of 12 consecutive months, unless a change is a material increase to one or more existing Price and results from a change in:
- (a) a cost that is a pass-through cost or a recoverable cost specified in a determination of an input methodology by the Commerce Commission under Part 4 of the Commerce Act 1986 in respect of the services provided by the Distributor;
 - (b) the Distributor providing new Network Services or materially changing existing Network Services, provided that any proposed Price change will only apply to ICPs affected by the new or changed Network Services; or
 - (c) the law.

Nothing in this Clause 12.2 prevents the Distributor from decreasing a Price at any time, or from increasing a Price with the agreement of the Retailer.

- 12.3 **Process to change Pricing Methodology:** If the Distributor intends to make a change to its Pricing Methodology that will materially affect one or more System Users (including the Retailer) or Consumers then without limiting Clause 12.2 and unless the Parties agree otherwise, the Distributor will:
- (a) **Consult with the Retailer:** Changes to pricing structures and/or methodology will be subject to meaningful consultation and transparency such that the intention and impact of the proposed changes are easily understood, and responses to the

Retailer's written comments, including decisions on final structure are transparent and clear prior to notification of final Pricing Methodology.

- (b) **Publish final Pricing Methodology:** Publish the final Pricing Methodology and the reasons for its decision, no later than the notice period specified in Clause 12.4(a).

12.4 **Notice of Price changes:** In addition to any notification requirements under Clause 12.3, the Distributor will give the Retailer Notice of Price changes in accordance with this Clause 12.4. The Distributor will:

- (a) provide 40 Working Days' notice of the Price change, unless the Distributor is required by law to implement the Price change earlier, in which case the Distributor will give as much notice as reasonably practicable;
- (b) provide to the Retailer:
 - (i) an update of Price information, in a way that makes key changes from the previous version clear; and
 - (ii) without limiting Clause 13, if an ICP or a group of ICPs is to be allocated to a different Load Group, a mapping table that clearly shows the new Load Group to which each ICP or group of ICPs is to be allocated;
- (c) send the information required in paragraphs (b) and (c) to the Retailer by email, as a minimum.

12.5 **Price Structure change and Price change disputes:** Once a Price Structure has been finalised in accordance with Clause 12.3, or a Price change is notified in accordance with Clause 12.4, the Retailer may raise a Dispute under Clause 26 in respect of the Price Structure or the Price change (as the case may be) only if the Retailer considers that the Distributor has not complied with Clause 3.1. If a Dispute is raised, the Retailer will continue to pay the Distributor's Tax Invoices until the Dispute is resolved.

12.6 **Changes containing an error:** If the Retailer identifies an error in the Price Structure finalised and Published in accordance with Clause 12.3, or a Price change notified in accordance with Clause 12.4, and the error arises from an obvious error in applying the Pricing Methodology, the Retailer will bring that error to the Distributor's attention as soon as possible after becoming aware of the error. The Distributor may correct such an error, including an error that it identifies itself, without following the process under Clause 12.3 or giving Notice under Clause 12.4(a) (as the case may be), provided that the correction of the error will not have a material effect on the Retailer.

13. ALLOCATING LOAD GROUPS AND PRICE OPTIONS TO ICPS

13.1 **Distributor allocates Load Group:** The Distributor will allocate a Load Group to each ICP on its Network. If there are two or more Load Groups within the Distributor's Price Structure for which an ICP is eligible, the Distributor will, acting reasonably, allocate one of the eligible Load Groups to the ICP. In allocating a Load Group, the Distributor will have regard to:

- (a) the eligibility criteria for each Load Group that are set out in the Price Schedule;
- (b) the attributes of the ICP; and
- (c) if known and relevant:
 - (i) the Retailer's preference for a particular Load Group in respect of which the ICP is eligible;
 - (ii) the GMS installed for the ICP;
 - (iii) the ICP's historic demand profile;
 - (iv) the Consumer's capacity requirements; and
 - (v) any other factors.

13.2 **Retailer may request allocation of an alternative eligible Load Group to an ICP:** At any time, the Retailer may request that the Distributor allocate an alternative Load Group to an

ICP, and will provide any information necessary to support its request. If the Distributor, acting reasonably, agrees that the ICP meets the eligibility criteria for the requested alternative Load Group, the Distributor will apply the change (but not retrospectively, unless it agrees otherwise) and advise its decision to the Retailer within 5 Working Days after receipt of Notice of the Retailer's request. If the Distributor declines the request, it will provide the reasons for its decision.

13.3 **Retailer request for reallocation of a Load Group if it considers a Price Category has been Incorrectly Allocated:** Under this Clause 13.3 and Clauses 13.4 and 13.6, a Load Group is “**Incorrectly Allocated**” to an ICP only if the ICP was ineligible for the Load Group allocated by the Distributor based on the relevant information available to the Distributor at the time it made the allocation. If the Retailer reasonably considers that a Load Group was Incorrectly Allocated, the Retailer will notify the Distributor of the reasons why it considers that the Load Group was Incorrectly Allocated and identify a Load Group that the Retailer considers should have been allocated to the ICP, which must be a Load Group for which the ICP is eligible. The Distributor will advise the Retailer within 10 Working Days after receipt of the Retailer's Notice whether it agrees to allocate the requested Load Group (the “**Corrected Load Group**”) to the ICP, such agreement not to be unreasonably withheld, and will provide the reasons for its decision. To avoid doubt, this Clause 13.3 does not apply if the Distributor has already provided Notice to the Retailer that the relevant Load Group is Incorrectly Allocated under Clause 13.6.

13.4 **Credit following correction:** If the Distributor allocates a Corrected Load Group to an ICP following Notice from the Retailer given under Clause 13.3, the Distributor will:

- (a) commence charging the Retailer in accordance with the Price(s) that applies to the Corrected Load Group with immediate effect; and
- (b) subject to Clause 13.5, and by issuing a Credit Note payable in the next monthly billing cycle, credit the Retailer with an amount (if positive) equivalent to:
 - (i) the Charges paid by the Retailer in respect of that ICP in the period from the later of:
 - (A) the Commencement Date;
 - (B) the date the Distributor Incorrectly Allocated the Load Group to that ICP; and
 - (C) the Switch Event Date for that ICP recorded for the Retailer,up to the date on which the Distributor allocates a Corrected Load Group to that ICP; less
 - (ii) the Charges that would have applied if the Corrected Load Group had been allocated to that ICP during the period referred to in subparagraph (i),

provided that the maximum period for which credit will be payable under this Clause 13.4 is 15 months, unless otherwise agreed.

13.5 **Limitations on credits for Load Group corrections:** Clause 13.4(b) will not apply in respect of an ICP if:

- (a) Clause 13.6 applies to the ICP; or
- (b) within 20 Working Days of the Switch Event Date recorded for the Retailer, the Retailer has not provided the Distributor with correct or complete information about the ICP or the Consumer necessary to determine Load Group eligibility (provided that information was not already known by the Distributor);
- (c) the Load Group correction was necessary because the Retailer provided the Distributor with incorrect or incomplete information in relation to the ICP or the Consumer or any other factors in respect of that ICP that were relevant to the allocation of a Load Group; or

- (d) the initial Load Group was allocated on the basis of incorrect information provided by the Consumer or the Consumer's representative.

13.6 **Distributor's right to change Load Group if it considers a Load Group has been incorrectly allocated:** If at any time the Distributor reasonably considers that a Load Group has been incorrectly allocated to an ICP:

- (a) the Distributor will notify the Retailer accordingly, including notification of the reasons why it considers that the Load Group has been incorrectly allocated, and identify the Load Group or Load Groups it considers the ICP is eligible for; and
- (b) unless the Retailer is able to provide evidence to the Distributor's reasonable satisfaction within 10 Working Days of the Distributor's Notice that the current Load Group has not been incorrectly allocated, the Distributor may allocate the Load Group that it considers appropriate to that ICP (acting reasonably and, if the Distributor identified more than one eligible Load Group in its Notice, taking into account the Retailer's or the Consumer's preferred Load Group as communicated to the Distributor by the Retailer), and may commence charging the Retailer for Network Services in accordance with that Load Group after a further 40 Working Days; and
- (c) the Distributor will provide to the Retailer information relevant to its decision.

To avoid doubt, this Clause 13.6 does not apply if the Retailer has already provided Notice to the Distributor under Clause 13.3 that the relevant Load Group has been Incorrectly Allocated.

13.7 **Commencement of Charges:** The Retailer is liable to pay Charges in respect of an ICP from the Switch Date where the ICP Status Code in the Registry is either ACTC or ACTV.

13.8 **Cessation of Charges:** The Retailer is not liable to pay Charges in respect of an ICP:

- (a) from the day after a Transitional Disconnection or Permanent Disconnection (but not as a result of a Temporary Disconnection) where the ICP Status Code in the Registry is either INACT or INACP until the day the ICP is Reconnected; or
- (b) from the Switch Event Date, if another retailer takes responsibility for the ICP.

14. BILLING INFORMATION AND PAYMENT

14.1 Calculating Tax Invoices for Network Service Charges:

The Retailer will provide consumption information, and the Distributor will calculate Network Service Charges payable by the Retailer, in accordance with the following:

- (a) the Retailer will provide to the Distributor, by;
 - (i) 5:00pm on the 5th Working Day after the end of each month; and
 - (ii) in accordance with the GIEP's set out in paragraph (b),
all information that the Distributor reasonably requires to enable it to calculate the Network Service Charges payable by the Retailer to the Distributor; and
- (b) the Parties acknowledge that the Distributor's Pricing Policy and Methodology is based on it receiving consumption volume information from the Retailer using:
 - (i) the As-Billed Normalised reporting methodology, as that methodology is defined in GIEP1; and
 - (ii) summary consumption information as described in GIEP2; and
- (c) the Distributor will calculate the Charges based on the Prices that apply to each chargeable quantity to which the Tax Invoice relates.

14.2 **Late, incomplete, or incorrect information:** If the Retailer does not provide information to the Distributor in accordance with Clause 14.1 by the 5th Working Day after the last day of

the month to which the Tax Invoice relates, or any information provided by the Retailer is incomplete or materially incorrect, the Distributor may estimate, in accordance with Good Industry Practice, the Retailer's Tax Invoice for Network Services.

14.3 **Issuing of Tax Invoices:** The Distributor will issue Tax Invoices for Network Services as follows:

- (a) the Distributor will invoice the Retailer within 10 Working Days after the last day of the month to which the Tax Invoice relates;
- (b) at the same time as it provides a Tax Invoice, the Distributor will provide to the Retailer, in accordance with the relevant GIEP, sufficiently detailed information to enable the Retailer to verify the accuracy of the Tax Invoice; and
- (c) if late, incomplete, or incorrect information is provided by the Retailer and the Tax Invoice is estimated in accordance with Clause 14.2 on the basis of that information, the Distributor will issue a Credit Note or Debit Note in the month after it receives additional or revised consumption information, at the same time as the Distributor issues a Tax Invoice to the Retailer for its Network Services Charges for that month.

14.4 **Due date for payment:** The settlement date for each Tax Invoice issued by the Distributor will be the 20th day of the month in which the Tax Invoice is received, or if the 20th day of the month is not a Working Day, the first Working Day after the 20th day. However, if the Distributor fails to send a Tax Invoice to the Retailer within 10 Working Days after the last day of the month to which the Tax Invoice relates and the Retailer did not send late information pursuant to 14.3(c), the due date for payment will be extended by 1 Working Day for each Working Day that the Tax Invoice is late.

14.5 Other invoices:

- (a) If applicable, the Distributor may issue the Retailer with:
 - (i) a Tax Invoice for payment for Additional Services, Service Guarantee payments and any other sums due to the Distributor under this Agreement; and
 - (ii) a Credit Note for payment of Service Guarantee payments due to the Retailer.
- (b) If applicable, the Retailer may issue the Distributor with a Tax Invoice for Service Guarantee payments and any other sums due to the Retailer under this Agreement.
- (c) Any Tax Invoice or Credit Note under Clause 14.5(a) or (b) will be issued within 10 Working Days of the end of the month to which the Tax Invoice or Credit Note relates.
- (d) The settlement date for any Tax Invoice issued under Clause 14.5(a) or (b) is the 20th day of the month in which the Tax Invoice is received, or if the 20th day of the month is not a Working Day, the first Working Day after the 20th day. If the Distributor or the Retailer (as the case may be) fails to send a Tax Invoice to the Retailer or the Distributor (as the case may be) within 10 Working Days after the last day of the month to which the Tax Invoice relates, the due date for payment will be extended by 1 Working Day for each Working Day that the Tax Invoice is late.

14.6 **Interest on late payment:** Subject to Clause 14.7, the Retailer or the Distributor (as the case may be) will pay any Tax Invoice issued under this Clause 14. If any part of a Tax Invoice that is properly due in accordance with this Agreement is not paid by the due date, Default Interest may be charged on the outstanding amount for the period that the Tax Invoice remains unpaid.

14.7 **Disputed invoices:** If the Retailer or the Distributor disputes a Tax Invoice issued under this Clause 14, the Party disputing the invoice ("**Disputing Party**") will notify the other Party ("**Non-disputing Party**") in writing and provide details as to the reasons why the Disputing Party disputes that invoice within 18 months of the date of the Tax Invoice ("**Invoice Dispute**"). On receiving an Invoice Dispute Notice, the Non-disputing Party will:

- (a) if the Non-disputing Party agrees with the matters set out in the Invoice Dispute Notice and:

- (i) the Disputing Party has not paid the disputed Tax Invoice, promptly issue a Credit Note for the disputed amount, and any remaining amount owed must be paid by the Disputing Party within 6 Working Days of receipt of the Credit Note, but need not pay prior to the time set out in Clause 14.4 or 14.5; or
 - (ii) the Disputing Party has paid the disputed invoice, calculate the amount that the Disputing Party has over paid and promptly issue a Credit Note to the Disputing Party for the amount over paid, which will include a Use of Money Adjustment. Any amount owed must be paid by the Non-disputing Party within 6 Working Days of issuing the Credit Note. A Use of Money Adjustment will apply for the period commencing on the date the original Tax Invoice was paid and ending when re-payment is made, but the amount need not be settled prior to the time set out in Clauses 14.4 or 14.5; or
- (b) if the Non-disputing Party disagrees with the matters set out in the Invoice Dispute Notice, either Party may raise a Dispute in accordance with Clause 26 and if the Disputing Party has not paid the disputed Tax Invoice, it will pay the undisputed amount of the disputed Tax Invoice issued in accordance with Clauses 14.4 or 14.5; and
 - (c) on the resolution of a Dispute under Clause 26, any amount owed must be paid by the relevant Party within 6 Working Days. Default Interest is payable for the period commencing on the date the disputed amount would have been due for payment under this Clause 14, and ending when payment is made. To the extent the Tax Invoice is held not to be payable, the Non-disputing Party will issue a Credit Note to the Disputing Party.
- 14.8 **Incorrect invoices:** If it is found at any time that a Party has been overcharged or undercharged and the Party has paid the Tax Invoice containing such overcharge or undercharge, within 20 Working Days after the error has been discovered and the amount has been agreed between the Parties, the Party that has been overpaid will refund to the other Party the amount of any such overcharge or the Party that has underpaid will pay to the other Party the amount of any such undercharge, in both cases together with a Use of Money Adjustment on the overcharged or undercharged amount, provided that there will be no right to re-open Tax Invoices if more than 18 months has elapsed since the date of the Tax Invoice.
- 14.9 **No set off:** Both Parties will make the payments required to be made to the other under this Agreement in full without deduction of any nature whether by way of set off, counterclaim or otherwise except as otherwise set out in Clause 14.7 or as may be required by law.
- 14.10 **Refund of Charges:** If:
- (a) as a consequence of a fault on the Network, there is a continuous interruption affecting a Consumer's Point of Connection for 24 hours or longer; and
 - (b) the Retailer within 60 days of the interruption requests the Distributor to refund the Charges paid by the Retailer in respect of the ICP or ICPs for that Consumer for the number of complete days during which the loss of supply continued,
- the Distributor will issue a Credit Note and refund, in the next monthly billing cycle, the Network Services Charges paid by the Retailer in respect of the ICP or ICPs for that Consumer for the number of complete days during which supply was interrupted.

15. PRUDENTIAL REQUIREMENTS

- 15.1 **Retailer will satisfy prudential requirements:** If required by a Notice from the Distributor, the Retailer will comply with either one of the following prudential requirements within 10 Working Days of receipt of the Distributor's Notice:
- (a) the Retailer will maintain an acceptable credit rating; or
 - (b) the Retailer will provide and maintain acceptable security by, at the Retailer's election:

- (i) providing the Distributor with a cash deposit of the value specified in Clause 15.6 ("**Cash Deposit**"), which the Distributor will hold in a trust account that the Distributor will establish and operate in accordance with Clause 0;
 - (ii) arranging for a third party with an acceptable credit rating to provide security in a form acceptable to the Distributor, of the value specified in Clause 15.6; or
 - (iii) providing a combination of the securities listed in subparagraphs (i) and (ii) to the value specified in Clause 15.6.
- 15.2 **Acceptable credit rating:** For the purposes of Clause 15.1, an acceptable credit rating means that the Retailer or the third party (as the case may be):
- (a) carries a long term credit rating of at least:
 - (i) BBB- (Standard & Poors Rating Group); or
 - (ii) a rating that is equivalent to the rating specified in subparagraph (i) from a rating agency that is an approved rating agency for the purposes of Part 5D of the Reserve Bank of New Zealand Act 1989; and
 - (b) if the Retailer or the third party (as the case may be) carries a credit rating at the minimum level required by paragraph (a), is not subject to a negative watch or any similar arrangement by the agency that gave it the credit rating.
- 15.3 **Retailer may elect prudential requirements:** The Retailer may elect to comply with the prudential requirements in any of the ways described in Clause 15.1 at any time, by complying with Clause 15.4.
- 15.4 **Change in prudential requirements complied with:** If the Retailer elects to change the way in which it complies with the prudential requirements, the Retailer will notify the Distributor of its intention at least 2 Working Days before the change occurs and the Parties will comply with Clause 15.14. The change will come into effect on the intended date, provided that the Retailer has complied with all its obligations under this Agreement, and on confirmation, satisfactory to the Distributor, that an alternative suitable form of security has been provided that satisfies the requirements of Clause 15.1.
- 15.5 **Evidence of acceptable credit rating:** The Retailer or third party (as the case may be) will provide such evidence that it has maintained an acceptable credit rating as the Distributor or its agent may from time to time reasonably require.
- 15.6 **Value of security:** The value of security required for the purposes of this Clause 15 is the amount calculated and advised by the Distributor to the Retailer in the Distributor's Notice under Clause 15.1 provided that the total value of all security required is no more than the Distributor's reasonable estimate of the Network Service Charges that the Retailer is likely to be required to pay the Distributor in respect of any 2 month period.
- 15.7 **Estimating the value of security if the Retailer is a new retailer:** If the Retailer has not previously entered into a contract with the Distributor for access to the Network, the Distributor will estimate the value of security required under Clause 15.6, subject to any reassessment of the value under this Agreement, having regard to:
- (a) the Distributor's historical records of the Network Service Charges in respect of the relevant ICPs; or
 - (b) in the absence of such records, a bona fide business plan prepared by the Retailer in good faith necessary for the Distributor to determine the value of security that it requires from the Retailer.
- 15.8 **Review of the value of security:** The Distributor may review, or the Retailer may require the Distributor to review, the value of security required to be provided by the Retailer at any time. Such updated information may reasonably be requested by the Distributor in order to effect such review.
- 15.9 **Retailer to notify Distributor of changes affecting security:** Subject to Clause 15.10, the Retailer will immediately notify the Distributor if any of the following occurs:

- (a) the Retailer no longer carries an acceptable credit rating; or
- (b) the Retailer has complied with prudential requirements by arranging for a third party to provide security in accordance with Clause 15.1(b), and the Retailer learns that the third party no longer carries an acceptable credit rating; or
- (c) the Retailer has reasonable cause to believe that its financial position is likely to be materially adversely impaired such that its ability to pay for Services will be affected.

Any information provided by the Retailer to the Distributor under this Clause 15.9 will be Confidential Information.

15.10 **Public issuers and listed companies:** For the purpose of Clause 15.9, if the Retailer:

- (a) is a “public issuer” for the purposes of the Securities Markets Act 1988, the Retailer may withhold any information to the extent that, and for so long as, the Retailer considers such information to be “inside information” as defined in that Act; or
- (b) is listed on the New Zealand Stock Exchange, the Retailer may withhold any information to the extent that the Retailer considers such information is “material information” under the Listing Rules of the New Zealand Stock Exchange.

15.11 **Distributor may make enquiries:** If the Distributor believes that the Retailer should have given Notice under Clause 15.9 and the Distributor has not received any such Notice, the Distributor may enquire of the Retailer as to whether it should have given such Notice. Any such enquiry will be in writing and be addressed to the Chief Executive of the Retailer. If Notice should have been given, the Retailer will give Notice immediately, or if no Notice is required, the Retailer will respond to the Distributor in writing within 2 Working Days of receipt of the Distributor’s Notice under this Clause 15.11. Correspondence sent or received by either Party under this Clause will be Confidential Information.

15.12 Change to the value of security: If:

- (a) following a review of the Retailer's security in accordance with Clause 15.8; or
- (b) on receipt of information contemplated by Clause 15.9 or 15.11; or
- (c) as the result of a failure by the Retailer to respond to a request made under Clause 15.11 within the timeframe set out in Clause 15.11;

the Distributor or the Retailer considers that the value of security should be increased or decreased, the Distributor will, acting reasonably, make a decision on what the value of security should be, and immediately notify the Retailer of its decision and the grounds for that decision. To avoid doubt, failure by a Retailer to respond to a request made under Clause 15.11 within the required timeframe constitutes reasonable grounds for a Distributor to change the value of security required to be provided by the Retailer.

15.13 Failure to maintain acceptable credit rating: If:

- (a) on receipt of information contemplated by Clauses 15.9 or 15.11; or
- (b) as the result of a failure by the Retailer to respond to a request made under Clause 15.11 within the timeframe set out in Clause 15.11,

the Distributor considers, acting reasonably, that the Retailer is no longer able to maintain an acceptable credit rating in accordance with Clause 15.1(a), and the Distributor still requires the Retailer to comply with prudential requirements, the Distributor will notify the Retailer of the value of acceptable security required in accordance with Clause 15.1(b).

15.14 **Distributor or Retailer to effect changes in value or type of security:** The Distributor or the Retailer, as appropriate, will take all actions necessary to satisfy the requirement for the increase or decrease in the value of security or change to the type of security, within 5 Working Days of notification under Clause 15.4, 15.12 or 15.13. Refunds of Cash Deposits and reductions of the value of third party security required will be made in accordance with Clauses 15.15 or 15.17.

- 15.15 **Refund of Cash Deposit:** If the Distributor refunds all or part of a Cash Deposit, it will refund all or part of the Cash Deposit into a bank account nominated by the Retailer on the Working Day following the day on which the Distributor decided to, or is required to, refund the Cash Deposit.
- 15.16 **Cash Deposit on Insolvency Event:** If an Insolvency Event occurs in relation to the Retailer:
- (a) the Retailer will not be entitled to a return of the Cash Deposit, other than as set out in 15.22(f); and
 - (b) if the Retailer fails or has failed to pay an amount owing under this Agreement, full beneficial ownership of that amount (plus Default Interest) of the Cash Deposit (or if the Cash Deposit is less than the amount owing, the full amount of the Cash Deposit) will automatically transfer solely to the Distributor and the Distributor will be entitled to draw down that amount (plus Default Interest), on 2 Working Days' Notice to the Retailer.
- 15.17 **Reduction of third party security:** If the Distributor decreases the value of third party security required in accordance with this Agreement, the Retailer may arrange for the issuing of new third party security for the lesser value, in satisfaction of Clause 15.1(b)(ii), which will replace the earlier third party security.
- 15.18 **When the Distributor may make a call on security:** The Distributor may make a call on security in accordance with Clause 15.19 if:
- (a) the Retailer has provided acceptable security in accordance with Clause 15.1(b);
 - (b) the Retailer fails to pay an amount due under this Agreement; and
 - (c) the amount is not subject to a genuine dispute.
- 15.19 **Calls on security:** If this Clause applies in accordance with Clause 15.18, the Distributor may, on 2 Working Days' notice to the Retailer (or immediately in the case of deemed Cash Deposit under Clause 15.21), call on the security as follows:
- (a) if the Retailer provided a Cash Deposit (which includes a deemed Cash Deposit), full beneficial ownership of the amount owing (plus Default Interest) of the Cash Deposit will automatically transfer solely to the Distributor effective from the expiry of the 2 Working Day notice period or immediately (as applicable) and the Distributor may then draw down and apply the amount owed (including Default Interest) from the Cash Deposit;
 - (b) if the Retailer arranged for a third party to provide security, the Distributor may call on the provider of a third party security to pay the amount owed in accordance with the security; and
 - (c) in either case, the Distributor will immediately notify the Retailer that it has called on the security.
- 15.20 **Requirement to maintain security:** To avoid doubt, if the Distributor draws down some or all of a Cash Deposit held by the Distributor under this Agreement, or calls on the provider of a third party security, the Retailer will within 5 Working Days take all steps necessary to ensure that the Retailer maintains acceptable security of the value specified in Clause 15.6 (as such may be reviewed by the Distributor in accordance with Clause 15.8), as required by Clause 15.1(b).
- 15.21 **Third party security may be released:** If the provider of third party security makes a payment to the Distributor in order to be released from its obligations under that security, such payment will be deemed to constitute a Cash Deposit provided by the Retailer in substitution for the third party security and will be dealt with in accordance with Clause 0.

- 15.22 **Trust Account Rules:** If the Distributor receives a Cash Deposit:
- (a) the Cash Deposit will be held in a trust account in the name of the Retailer, to be applied or distributed only on the terms of this Agreement, or as otherwise agreed by the Parties;
 - (b) the Distributor will establish a trust account with a New Zealand registered bank (“**the Bank**”) for the purpose of holding the Cash Deposit (“**Trust Account**”);
 - (c) the Distributor will obtain acknowledgement from the Bank that the Cash Deposit is held on trust in the Trust Account and that the Bank has no right of set-off or right of combination in relation to the Cash Deposit;
 - (d) the Retailer will inform the Distributor of the bank(s) that the Retailer uses for its banking purposes and if the Retailer changes banks;
 - (e) the Trust Account will bear interest at the best on call rate reasonably available from time to time from the Bank. The Distributor will pay the Retailer the interest earned on the Cash Deposit on a quarterly basis net of account fees and any amounts required to be withheld by law, unless the Parties agree otherwise;
 - (f) if this Agreement is terminated, the Distributor will refund any Cash Deposit (less any amount owed to the Distributor plus any interest not yet paid to the Retailer) to the Retailer in accordance with Clause 15.15, provided that the Retailer:
 - (i) is not otherwise in default of this Agreement;
 - (ii) has ceased to be bound by this Agreement; and
 - (iii) has discharged all obligations under this Agreement to the Distributor, including payment of all outstanding amounts under this Agreement; and
 - (g) the Distributor will provide the Retailer with an annual report in respect of the operation of the Trust Account if requested by the Retailer.
- 15.23 **Release of third party security:** If this Agreement is terminated, the Distributor will release any third party security, provided that the Retailer has met all of the requirements set out in Clause 15.22(f).

PART III - OPERATIONAL REQUIREMENTS

16. ACCESS TO THE CONSUMER'S PREMISES

- 16.1 **Rights of entry onto Consumer's Premises:** The Retailer will, subject to Clause 28.1, include in each of its Consumer Contracts a requirement that the Consumer provide the Distributor and its agents with safe and unobstructed access onto the Consumer's Premises for all of the following purposes:
- (a) to install, inspect, maintain, operate, upgrade, downgrade, replace or remove (provided that the work to be performed does not have any material adverse effect on the relevant Consumer or Consumer's Premises) the Distributor's Equipment;
 - (b) to disconnect and reconnect the Consumer in accordance with this Agreement;
 - (c) to access the Retailer's Equipment to verify metering information, including, in the event of termination of this Agreement, to determine any Charges outstanding at the time of termination;
 - (d) to ensure the safety of persons or property;
 - (e) to ensure that the Consumer fulfils its obligations in accordance with Clause 17.7; and
 - (f) to enable the Distributor to gain access to and remove any of the Distributor's Equipment following the termination of the Consumer Contract for the period ending 6 months after the date that termination takes effect.

16.2 **Exercise of access rights:** In exercising its access rights under Clause 16.1, the Distributor will, except to the extent that the Distributor has any other binding agreement setting out its access rights directly with the Consumer:

- (a) comply with sections 23, 24, 36, 50, 51 and 52 of the Gas Act 1992 as though these sections relate to the Distributor's access rights as contemplated under Clause 16.1, provided that the Distributor will give written Notice to a Consumer if the Distributor intends to access the Consumer's Premises for any reason (except if the Distributor requires access to carry out a routine inspection or operation of the Distributor's Equipment, or in an emergency situation);
- (b) ensure that it has appropriate procedures in place for the secure storage, use, and return of any key to and any security information about the Consumer's Premises;
- (c) cause as little disturbance or inconvenience as practicable to the Retailer and the Consumer (including minimising any direct impact on the Consumer's property) and ensure that its personnel:
 - (i) behave in a courteous, considerate and professional manner at all times while on the Consumer's Premises;

 - (iii) if practicable, identify themselves to the Consumer before entering the Consumer's Premises; and
- (d) comply with the Consumer's reasonable requirements, practices and procedures as disclosed by the Consumer or as generally practised for health and safety, and security requirements.

16.3 **Distributor may disconnect:** The Retailer will, subject to Clause 28.1, include in its Consumer Contracts a provision to the effect that if the Consumer breaches the provisions of its Consumer Contract that require it to give the Distributor access to the Distributor's Equipment on the Consumer's Premises, and the breach is material or persistent, the Distributor may disconnect the Consumer's ICP from the Network and access the Consumer's Premises to reclaim the Distributor's Equipment, provided that:

- (a) if access was required for a purpose described in Clause 16.1(a), (b), (c) or (f), the Distributor or Retailer gave the Consumer 10 Working Days' Notice of access being required (if access is required for a purpose described in Clause 16.1(b), (d) or (e), such Notice is not required); and
- (b) if the disconnection is a Temporary Disconnection, the Distributor has complied with Clause S6.15 of Schedule 6.

16.4 **Costs of disconnection:** The Distributor will not be liable for any loss the Retailer may suffer or incur as a result of a disconnection carried out because the Consumer has not given the Distributor access in accordance with the relevant Consumer Contract and/or the requirements of this Agreement. The Retailer will reimburse the Distributor for all of the Distributor's reasonable costs incurred in relation to the disconnection and any reconnection.

16.5 **Existing agreement will prevail:** In the event of a conflict between Clause 16 and any provision of any existing agreement between the Consumer and Distributor with respect to the Distributor's access rights to the Consumer's Premises, the provisions of the existing agreement between the Distributor and Consumer will prevail to the extent of such conflict.

17. GENERAL OPERATIONAL REQUIREMENTS

17.1 **Interference or damage to Distributor's Equipment by Consumers:** The Retailer will, subject to Clause 28.1, include in each of its Consumer Contracts a requirement that, during the term of the Consumer Contract and until the end of the period ending 6 months after the termination of the Consumer Contract, the Consumer will not interfere with or damage, and will ensure that its agents and invitees do not interfere with or damage, the Distributor's Equipment without the prior written consent of the Distributor (except to the extent that

emergency action has to be taken to protect the health or safety of persons or to prevent damage to property).

- 17.2 **Costs of making good any damage:** The Retailer will, subject to Clause 28.1, include in each of its Consumer Contracts a requirement that, if any of the Distributor's Equipment is damaged by the negligence or wilful act or omission of the Consumer or the Consumer's agents or invitees, then the Consumer will pay the cost of making good the damage to the Distributor and that such provision is for the benefit of the Distributor (in accordance with the provisions of the Contracts Privity Act 1982 and may be enforced directly by the Distributor).
- 17.3 **Interference or damage to Distributor's Equipment by the Retailer:** The Retailer will ensure that it and its employees, agents and invitees do not interfere with or damage the Distributor's Equipment (including, without limitation, for a period of 6 months after termination of this Agreement) without the prior written consent of the Distributor (except to the extent that emergency action has to be taken to protect the health or safety of persons or to prevent damage to property).
- 17.4 **Costs of making good any damage:** If any of the Distributor's Equipment is damaged by the negligence or wilful act or omission of the Retailer or the Retailer's employees, agents or invitees, then the Retailer will pay the cost of making good the damage to the Distributor.
- 17.5 **Interference or damage to Retailer's Equipment or Consumer's Installations:** The Distributor will ensure that it and its employees, agents and invitees do not interfere with or damage the Retailer's Equipment or the Consumer's Installation (including, without limitation, for a period of 6 months after termination of this Agreement) without the prior written consent of the Retailer or the Consumer (as the case may be) (except to the extent that emergency action has to be taken to protect the health or safety of persons or to prevent damage to property).
- 17.6 **Costs of making good any damage:** If the Retailer's Equipment or the Consumer's Installation is damaged by the negligence or wilful act or omission of the Distributor or the Distributor's employees, agents or invitees, the Distributor will pay the cost of making good the damage to the Retailer or the Consumer (as the case may be). This Clause 17.6 is for the benefit of the Consumer and may be enforced by the Consumer under the Contracts (Privity) Act 1982.
- 17.7 **Interference with the Network:** The Retailer will, subject to Clause 28.1, include in its Consumer Contracts a provision to the effect that the Consumer will not, without the prior written agreement of the Distributor inject or attempt to inject any gas or substance into the Network.
- 17.8 **Notification of interference, damage or theft:** If the Distributor or Retailer discovers any interference or damage to the other Party's equipment or the Consumer's Installation, or evidence of theft of Gas, loss of Gas or interference with the Network, the discovering Party will notify the affected Party as soon as it is practicable to do so.
- 17.9 **Additional GMS:** Either Party may, at its own cost, install and maintain additional GMS (whether owned by that Party or by a third party) for metering data verification purposes or other purposes, provided that:
- (a) the additional GMS does not interfere with any other equipment owned or used by the other Party; and
 - (b) the Party installing the additional GMS ensures that it is installed and maintained in accordance with Good Industry Practice.

- then no earlier than 1 Working Day after the end of the timeframe set out in Clause 21.1, the other Party may issue a Notice of termination in accordance with Clause 22.2 and, if the breach is a Serious Financial Breach by the Retailer, the Distributor may notify the Gas Industry Company in writing that the Retailer is in breach of this Agreement.

- (c) **Illegality:** either Party may terminate this Agreement 1 Working Day after Notice is given by either Party to the other Party terminating this Agreement for the reason that performance of any material provision of this Agreement by either Party has to a material extent become illegal and the Parties acting reasonably agree that despite the operation of Clause 31.4 it is not practicable for this Agreement to continue;
- (d) **Termination by the Retailer if the Retailer is not supplying Gas on the Network:** the Retailer may terminate this Agreement by giving 5 Working Days' notice to the Distributor if the Retailer is not supplying Gas to any Consumer through the Network;

22.2 **Termination of Agreement for Event of Default or Insolvency Event:** In addition to any other termination right in this Agreement, if a Party has breached this Agreement and the breach is an Event of Default, or a Party has become subject to an Insolvency Event, the other Party may (immediately in the case of an Insolvency Event, and not less than 1 Working Day after the end of the timeframe set out in Clause 21.1 in the case of an Event of Default) issue a Notice of termination to the defaulting Party, effective either:

- (a) no less than 5 Working Days after the date of such Notice; or
- (b) immediately if the Retailer has ceased to supply Gas to all Consumers.

22.3 **Termination not to prejudice rights:** Termination of this Agreement by either Party will be without prejudice to all other rights or remedies of either Party, and all rights of that Party accrued as at the date of termination.

22.4 **Retailer remains liable for Charges for remaining Consumers:** If this Agreement is terminated by the Distributor for any reason, the Retailer remains liable to pay any Charges for Services that arise in relation to connected Consumers that have not been switched to another retailer, or whose ICPs have not been disconnected by the Distributor (unless the Distributor has received Notice to disconnect the ICPs and has not done so, in which case

- 24.1 **Force Majeure Event:** A Force Majeure Event occurs if:

- 24.2 **No liability:** A Force Majeure Event will not give rise to any cause of action or liability based on default of the provision that the Party has failed to comply with or observe due to the Force Majeure Event.
- 24.3 **Notice:** If a Party becomes aware that a Force Majeure Event may occur or has occurred, it will:
- (a) notify the other Party as soon as reasonably practicable that it is invoking Clause 24.1;

- 24.5 **No obligation to settle:** Nothing in Clause 24.4(a) is to be construed as requiring a Party to settle a strike, lockout or other industrial disturbance by acceding, against its judgement, to the demands of opposing parties.
25. **AMENDMENTS TO AGREEMENT**
- 25.1 A change may be made to this Agreement:
- (a) if the change is to one or more of the Variable Provisions and the change is made in accordance with Clause 25.2;
 - (b) if the change is a change to the Pricing Methodology or Price Schedule and the change is made in accordance with Clause 12;

 - (d) if the change is made in accordance with Clause 25.5 and involves:
 - (i) permanent disconnection of all or part of the Network from a Gas Gate; or
 - (ii) the construction of a new Gas Gate; and
 - (e) if the change does not fall into any of the categories set out above, and the change is made in accordance with Clause 25.4.

 - (c) by agreement in writing between the Parties.
- 25.3 **Distributor seeks change to a Variable Provision:** If there is no applicable process in the Variable Provision, the Distributor may change the Variable Provision, provided that the proposed change is in accordance with Good Industry Practice and the Distributor has complied with the following:

- (d) **Procedure for changes required by law if the Parties have not agreed:** if the proposed change is contemplated by Clause 25.1(c) and the Parties are unable to agree on the change within 60 Working Days of the date the Notice was first given under paragraph (a), the matter will be referred to the decision of any independent, experienced and suitably qualified person agreed between the Parties or failing agreement, appointed by the President for the time being of the New Zealand Law Society. The person appointed will act as an expert and not as an arbitrator and the decision of that person:
 - (i) will be the minimum necessary to effect the mandatory change required by Clause 25.1(c);
 - (ii) subject to subparagraph (i), will be binding, absent obvious error; and

The Distributor will provide the Retailer at least 20 Working Days' notice of the date on which the commissioning of or permanent disconnection from the Gas Gate is expected to be complete, and this agreement will be deemed to be varied from that date to the extent necessary as a result of the commissioning or permanent disconnection.

25.6 **Exception:** If a change to the agreement has a de minimis effect on the contractual undertakings of the Parties (for example terminology changes to accord with new industry classifications or definitions), either Party may effect the change by Notice to the other Party and nothing in Clauses 25.1 to 25.5 will apply to the change. If the Party receiving such a Notice disagrees that the change has a de minimis effect, the Party may raise a Dispute in accordance with Clause 26.

Temporary Disconnections and associated reconnections

- S6.10 **Consumers' Installations to be compliant:** The Retailer will, subject to Clause 28.1, ensure that its Consumer Contracts require the Consumer to ensure that its Consumer Installation complies with all relevant legal requirements and the Network Connection Standards, including (if applicable) by ensuring that any alteration is certified by a suitably qualified person.
- S6.11 **ICPs not Decommissioned without Notice:** The Parties agree that neither Party will seek to have an ICP Decommissioned without first giving the other Party 24 hours' notice or any other notice period agreed by the Parties.
- S6.12 **Warranted Persons:** Each Party will ensure that any person that it engages to carry out any activity related to Connecting, Reconnecting and Disconnecting ICPs, is a Warranted Person.
- S6.13 **Disconnection by the Retailer:** The Parties agree that a Temporary Disconnection of an ICP at which the Retailer supplies Gas may be carried out by the Retailer in the following circumstances:
- (a) if in an emergency it is necessary to avoid endangering persons or property;
 - (b) for credit reasons; or
 - (c) if requested by the Consumer, for safety or other reasons.
- S6.14 **Disconnection by the Distributor:** The Retailer will, subject to Clause 28.1, ensure that its Consumer Contracts require that, subject to Clauses S6.15 to S6.17, the Distributor may perform a Temporary Disconnection in relation to a Consumer's ICP in the following circumstances:
- (a) it is necessary to avoid endangering persons or property;
 - (b) there has been an occurrence, or there are circumstances, that may adversely affect the proper working of the Network;
 - (c) an Event of Default or Insolvency Event has occurred in relation to the Retailer;
 - (d) in accordance with Clause 16.3;
 - (e) if a Consumer does any of the things prohibited under Clauses 17.1 or 17.7, or fails to do any of the things required of it as contemplated in Clause 18; or
 - (f) on termination of this Agreement.

S6.15 Notice of disconnection if event is within Consumer's control: If the Distributor intends to perform a Temporary Disconnection as contemplated in Clause S6.14, the Distributor will give the Retailer Notice of the Temporary Disconnection as follows:

- (a) the Distributor will give the Retailer at least 5 Working Days' prior notice of disconnection if the Distributor intends to perform a Temporary Disconnection because:

 - (ii) the Consumer damaged or interfered with the Distributor's Equipment or Network; or
- (b) the Distributor will give the Retailer at least 10 Working Days' prior notice of disconnection if the Distributor intends to perform a Temporary Disconnection where the Consumer fails to do any of the things required of it as contemplated in Clause 16.

S6.16 Content of Notice of disconnection for events within Consumer's control: The Notice of Temporary Disconnection provided by the Distributor to the Retailer under Clause S6.15 will specify:

- (a) the ICP identifier relating to the Consumer breach;
- (b) the particulars of the Consumer breach;
- (c) the remedy required if disconnection is to be avoided; and
- (d) the date on which disconnection will occur if the breach is not previously remedied to the Distributor's reasonable satisfaction.

S6.17 Retailer to provide Notice of disconnection to Consumer: On receipt of a Notice of breach by a Consumer under Clause S6.15, the Retailer will promptly forward a physical Notice to the relevant Consumer and include mail, email, and telephone contact details that the Consumer may use to communicate with the Retailer over the matter. The Retailer will promptly forward to the Distributor any response received from the Consumer and the Distributor will consider in good faith all such responses it receives. The Retailer and the Distributor will work together to ensure that communications are co-ordinated and promptly communicated to the relevant party.

S6.18 Notice of disconnection if event is outside the Consumer's control:

- (a) If the Distributor intends to perform a Temporary Disconnection under Clause S6.14, S6.14(c) or S6.14(f), and the grounds for the Temporary Disconnection are not being reasonably Disputed by the Retailer, and the Distributor has taken reasonable steps to avoid the need for a Temporary Disconnection, the Distributor will give each Consumer:
 - (i) at least 9 Working Days' notice of warning of disconnection before any disconnection, such Notice to include the reason for the Temporary Disconnection and be sent to each Consumer's last address provided to the Distributor by the Retailer, or if no address has been provided as the Retailer has no Consumer at that ICP, the Notice will be sent to the Consumer's address on the Registry;
 - (ii) a final warning of not less than 48 hours nor more than 7 days before the disconnection. The final warning will provide the timeframes for disconnection. This will be a separate Notice to the one provided at least 9 Working Days prior to disconnection;
 - (iii) if disconnection is not completed within the timeframes notified, the Distributor will issue another final warning not less than 48 hours nor more than 7 days before disconnection:

- (b) if the Distributor intends to perform a Temporary Disconnection as contemplated by Clause S6.14, S6.14(a) or S6.14(b), the Distributor will use its best endeavours to give each Consumer as much prior Notice as reasonably practicable, but in any event will notify the Consumer no later than 2 days after the Temporary Disconnection.

S6.19 Each Party to give Notice of Temporary Disconnection: The Party that performs a Temporary Disconnection in respect of a Consumer will (unless otherwise agreed) notify the other Party of that fact no later than 2 Working Days after the Temporary Disconnection. To avoid doubt, the status of the ICP in the Registry shall not be changed by any Party to “Inactive” and shall remain as “Active”.

S6.20 Restoration of connection: If either Party has performed a Temporary Disconnection in respect of a Consumer's ICP, the Party that performed the Temporary Disconnection will take reasonable steps to arrange restoration of supply to the connection as soon as reasonably practicable and no longer than 3 Working Days after conditions for reconnection have been satisfied.

Transitional Disconnections and associated reconnections

S6.21 The Retailer may undertake a Transitional Disconnection of an ICP if:

- (a) the Retailer is recorded as the retailer for the ICP in the Registry; and
- (b) the ICP has an “active” status in the Registry.

S6.22 The Retailer may reconnect an ICP that is subject to a Transitional Disconnection if it wishes to supply Gas to that ICP. If the ICP has been disconnected for more than 6 months, the ICP will not be Reconnected until the Retailer is satisfied that Regulation 50 of the Gas (Safety and Measurement) Regulations has been complied with in respect to the safety and certification of the Consumer Installation.

S6.23 The Retailer will ensure that Transitional Disconnections and associated Reconnections are carried out in accordance with the Gas Industry Disconnection and Reconnection Protocol and the Distributor's reasonable operational work practices for managing vacant premises. If a Transitional Disconnection or the associated reconnection requires access to any Network equipment or Distributor's Equipment, it must be carried out by a Warranted Person.

S6.24 The Retailer may give the Distributor Notice that the Distributor is responsible for completing the Transitional Disconnection for an ICP if:

- (a) the Retailer wishes to carry out a Transitional Disconnection for the ICP;
- (b) the Retailer has not been able to complete the Disconnection at the ICP due to a technical problem which can only be remedied by the Distributor; and
- (c) the Retailer has not been able to complete a Transitional Disconnection in accordance with Good Industry Practice for that ICP after 2 separate site visits for that purpose by a Warranted Person, including by seeking to disconnect at the ICP at the GMS.

S6.25 If the Retailer gives the Distributor Notice under Clause S6.24:

- (a) the Distributor will endeavour in accordance with Good Industry Practice to complete the Transitional Disconnection;
- (b) the Distributor will remedy the technical problem that prevented the Retailer from completing the Disconnection if it is reasonably practical to do so; and
- (c) the Retailer will continue to use reasonable endeavours to seek to gain access to the ICP GMS.

- S6.26 The Party performing the disconnection or reconnection will, unless otherwise agreed, notify the other Party within 2 Working Days of completion of the work.
- S6.27 Both Parties will update the Registry throughout this process in accordance with the Switching Arrangements Rules.

Decommissioning an ICP

- S6.28 A Distributor may Decommission an ICP in the following circumstances,:
- (a) the Distributor is advised by a Consumer, landowner or the Retailer that Gas is no longer required at the ICP;
 - (b) it is necessary to Decommission the ICP because public safety is at risk;
 - (c) the Registry notifies the Distributor that for an ICP the ICP Status Code is "Inactive-Permanent" with a Connection Status Code of "GPM"; or
 - (d) if the Distributor has not supplied Network Services in respect of the ICP for 6 months or more,
- provided that in respect of paragraphs (a) and (d), the Distributor will, unless advised by the Retailer, notify the Retailer before Decommissioning the ICP to enable the Retailer to arrange for removal of the GMS (if appropriate) and updating of the Registry.
- S6.29 A Decommissioning will be performed by disconnecting the Service Pipe from the main or at a point within the Service Pipe itself, purging the disconnected section of pipe of Gas and physically sealing both ends. The Distributor will not remove, or pay for removal of, the disconnected section of Service Pipe even if requested to do so by the Consumer, but the Consumer is within their rights to remove the section of Decommissioned Service Pipe within the Consumer's Premises at their own cost, should they wish to do so.
- S6.30 The Distributor will notify the Retailer within 2 Working Days of the Decommissioning having been completed.
- S6.31 If an ICP has the status of "Decommissioned" on the Registry, the ICP identifier will not be used again and the process for new connections will be followed if supply is required again at the property.
- S6.32 Both Parties will update the Registry throughout this process in accordance with the Switching Arrangements Rules.

SCHEDULE 7 – GAS EMERGENCIES

S7.1 Except where the Retailer is required to direct consumers to curtail demand in accordance with instructions from the Critical Contingency Operator following declaration of a critical contingency under the Gas Governance (Critical Contingency Management) Regulations 2008, the Distributor will be responsible for managing emergencies affecting the network.

S7.2 Emergency management will include such actions as are necessary to:

- a) assess and make safe any situation;
- b) control the flow of Gas into and out of the network, including:
 - i. during a critical contingency, curtailment of demand by retailers in accordance with instructions from the Critical Contingency Operator;
 - ii. during other emergency events, coordination of resources with retailers to isolate individual consumer supplies to enable Gas to be restored in the network once the cause of the loss of supply has been rectified;
- c) make temporary or permanent repairs to any part of the network
- d) restore the network back to its normal operating condition;
- e) control the restoration of Gas supply to consumers' installations while ensuring network security is not compromised, including:
 - i. during a Critical Contingency, following receipt of Notice from the Critical Contingency Operator that curtailed demand may be restored from the transmission system, issuing instructions to the Retailer (and all other retailers) outlining when curtailed demand can be restored (together with any specific instructions with respect to the order of restoration) to enable the orderly restoration of supply to consumers' installations including the relighting of pilots;
 - ii. during other emergency events, following repair of the cause of loss of supply and restoration of Gas within the network, co-ordination of resources with retailers to enable the orderly restoration supply of Gas to consumers' installations including the relighting of pilots;
- f) keep the Retailer informed of developments following termination of a Critical Contingency and throughout for other emergency events, including:
 - i. arranging an initial conference call, and subsequent conference call meetings as appropriate, to discuss coordination of resources, communications and strategy to deal with the emergency;
 - ii. updating the Retailer as soon as practically possible of new information becoming available that would likely change the message to the Retailer's customers;
 - iii. providing a status update regularly (as agreed in the initial or subsequent conference call meetings);
 - iv. providing notification to the Retailer when the network is fully restored and back to normal operation.
- g) keep the public informed of developments:

- i. for Critical Contingency events, following termination of a Critical Contingency where the curtailed demand or loss of supply is more widespread than curtailment bands 2-5 and requires coordination of resources to restore supply to consumers' installations including the relighting of pilots;
 - ii. during other emergency events, throughout the period of the emergency until supply is restored to all consumers' installations including the relighting of pilots.
- S7.3 The Distributor and the Retailer will maintain emergency management plans outlining the responses and actions likely to be taken when handling critical contingencies and other Gas supply emergencies. The plan will include demand curtailment and restoration principles, actions required, emergency liaison and contacts, and take into account the Gas Governance (Critical Contingency Management) Regulations 2008 and associated plans and guides (CCO communications plan, CCO information guide, Critical Contingency Operator's critical contingency management plans).
- S7.4 The Distributor and the Retailer will provide each other with emergency contact details, and will review and update the information as required (at least annually) including identification and advice of who will act as the key point of contact for each of the Parties (and their contact details) when an emergency event occurs.
- S7.5 The Retailer must take all practicable steps during the course of an emergency to assist the Distributor in managing the emergency.
- S7.6 Where the emergency is a Critical Contingency declared under the Gas Governance (Critical Contingency Management) Regulations 2008, the Retailer will meet the costs of isolating its consumers' supplies and restoring supply to its consumers' installations, including the re-lighting of pilots.
- S7.7 Where the emergency has resulted from an event on the network, the Distributor will meet the reasonable direct costs incurred by the Retailer in isolating consumers' supplies and restoring supply to consumers' installations, including the re-lighting of pilots. In these situations the Distributor may elect to effect the isolation, restoration and/or re-lighting of pilots, in which case the Distributor will not be required to meet any other additional costs.
- S7.8 Both the Distributor and Retailer will ensure that appropriate records are maintained of communications received and actions taken during an emergency, including the date and time of all such communications and actions. This will enable a full debrief following the event, and provision of records should claims arise, or settlements be initiated, following the event.
- S7.9 The Distributor's responsibilities in the management of emergencies affecting the network are without prejudice to any rights the Distributor may have against any third party who has caused or contributed to the cause of an outage or other event resulting in an emergency on the network, including (but not limited to) the right to recover costs against the third party.
- S7.10 The Distributor and Retailer agree to undertake periodic testing of the arrangements for managing emergencies including the effectiveness of each Party's emergency management plans.
